GOVT. ORDERS RELEASE OF HOARDED CLOTH

Present Stocks Must Be Cleared Before November

PRICE CONTROL THROUGH PANEL; SPECIAL POWERS TO TEXTILE COMMISSIONER AND COURTS OF LAW

NEW DELHI, June 16.

The Government of India have issued an order setting forth measures to control the prices, production and sale of cotton cloth and yarn, and to prevent hoarding by the manufacturer and consumer. The order gives effect to the Agreement concluded early in June in Bombay between the Government of India and the Indian Cotton Textile Industry.

The order sets up a Textile Control Board, consisting of 25 with a non-official Chairman to be designated by the Central Government to advise the Central Government through the Textile Commissioner in declaring and defining classes and specifications of cloth and yarn which may be manufactured by mills; fixing maximum prices both ex-factory and retail, and prescribing the markings which manufacturers shall make upon the cloth manufactured by them.

The order calls upon manufacturers and dealers to declare not later than August 15, 1943 stocks of cloth and yarn held by them on July 31 and requires them to dispose of such stocks before October 31.

All cloth manufactured after July 31 and bearing the specially prescribed markings is to be disposed of by retail sale within six months of the date of packing by the mills.

No manufacturer is allowed to hold stocks equivalent to more than three months' production of cloth, and not more than two months' production of yarn. No person other than a dealer or manufacturer is at any time to have in his possession cloth or yarn in excess of his normal requirements; but no prosecution for contravention of this provision can be made without the Provincial Government's previous sanction.

Power is given to the Textile Commissioner to order inspection of books and entry into and search of premises and the furnishing of necessary information. Courts are given power in addition to any sentence to order the forfeiture of stocks. Indian states are being invited to issue similar orders.

Let Gandhiji Accept Pakistan, Letter Will Reach Jinnah

KARACHI, June 14.

If Gandhiji writes another letter to Mr. Jinnah as suggested in a section of the press expressing a wish to meet him to know the details of Pakistan scheme it is bound to meet the fate of his previous letter.

This is the opinion expressed in circles close to Mr. Jinnah. They say that Mr. Jinnah's position is that Gandhiji knows what the Muslim League stands for and what Pakistan means. League has not so far put forth any scheme and so the question of discussing its details does not arise.

The question involved is only that of the principle laid down in the Lahore resolution of the League. If Gandhiji accepts this principle Mr. Jinnah still asserts that Government would not stop his letter.

If Government acts contrarily it is believed League will join hands with the Congress and put up united front against the Government.—Orient Press.

MATRICULATION RESULTS

The city edition of the "Bombay Chronicle" of Saturday 19th instant will contain the numbers of all successful candidates who appeared at the last matriculation examination.

"Jinnah Expects No Love Letters From Gandhi"

If Gandhiji is sincere about Hindu-Muslim unity upon which the very freedom of our country depends he should unequivocally declare himself in favour of Muslim self-determination in a second letter to Mr. Jinnah.

Mr. Jinnah expects a letter which would contain the recognition of Muslim demand and not love letters from Gandhiji" declared Dr. Abdu Hamid Kazi, the Salare-Suba of the Bombay Provincial Muslim National Guards, at a public meeting held under the auspices of the District Muslim League, Ahmednagar press.

INDIA ISSUE.

Two resolutions on India are to be introduced by local party delegates at the Labour Party Conference on Thursday One demands "immediate reopening of negotiations with bodies truly representative of the major communities of the population of India." The other urges the British Government "to take the initiative in negotiating with Indian national leaders on the basis of recognition of India's independence and formation of a Provisional Government of Indian National unity under an Indian Prime Minister."

The attitude of the Party's National Executive Committee (reaffirmed in its report to the Conference) was stated in the declaration issued last August deploring the Civil Disobedience movement as "certain to injure seriously the hope of Indian freedom" and urging the Government "to make it clear that on the abandonment of the Civil Disobedience it would be ready to resume free and friendly discussions with a view to safeguarding and implementing the principle of self-Government already proclaimed by the British Government and endorsed by the British Parliament."

Axis Reaction To Allied Plans

Hitler Prepares To Meet Invasion

TOJO TELLS JAP DIET OF PENDING ANGLO-AMERICAN OFFENSIVE

LEEDS, June 16.

Continental advices reaching London suggest that Hitler has ordered large labour forces to an inner defence line just outside the frontiers of the Reich, according to the "Yorkshire Post" Military Correspondent.

NORWAY AND ITALY LEFT OUT

He says "coastal forces are believed to be of a holding strength only, suggesting that the Germans contemplate two retirements, one to defence zones if landing succeed, and another to the frontiers of the Reich if needed.

There is clear evidence that this double line leaves Norway and Italy outside the scheme. Norway is being walled in to hold its own in isolation. Italy is plainly left to the Italian Army to absorb the shock of sudden attack.

German plans suggest a campaign of counter-attacks based on defensive lines to prevent Allied armies from obtaining big results this summer. This was the plan tried in Tunisia and it broke down under assault."—

TOKYO: Gen. Hideki Tojo, the Japanese Premier, speaking at the opening of the extraordinary session of the Diet said the Imperial forces are at present conducting operations in China, in the region of the Burma-India frontier and in the Pacific.

Our nation will fight this war to the finish and with determination. "I firmly believe", said Gen. Tojo, "in the successes of Germany, Italy and their Allies in the prosecution of war on account of their already established position.

Gen. Tojo said that the situation was becoming "increasingly tense."

He added that there were increasing signs of a pending British and American offensive on a large scale.—Reuter.

CITY MARKETS

BOMBAY, Wednesday.

SHARES: Neither Bears nor Bulls are in a mood to increase their operations pending the settlement and there is more disposition to await details of cloth control. It appears since cloth prices are sagging, there seems no urgent need and it is believed that before any definite control is adopted, dealers will be asked to liquidate their Stocks. So that prices may decline. Thus one will have to wait and wait. The Government has controlled raw cotton prices but they have not come out with a full scheme. Any attempt to control cloth prices, makes it imperative that raw cotton prices must be stabilised. The Government has no cotton to offer if prices go over fixed rallies and no measure is adopted to stop the decline. If cotton prices decline, there is no meaning in fixing cloth prices. This goes to prove that control measures adopted must be effective and not elastic otherwise they will do more harm to some classes. The local market was quietly steady. Tata Steel Dfd. Shares

CLOTH CONTROL

The Government of India have promptly enough issued an Order setting forth measures for the control of the production and sale of cotton cloth and yarn in accordance with the agreement concluded early in June in Bombay between themselves and the Indian textile industry. The control will be regulated by Government through a Textile Commissioner appointed by themselves and invested with considerable powers, including that of entry into and search of premises. The Commissioner will be only "advised" by a Board of twenty-five persons also appointed by Government. The Board is to advise on the classes and specifications of cloth and yarn which may be manufactured by mills and to fix maximum prices, and the Board's advice will be only "ordinarily" acted upon by the Commissioner. In short the Government of India have assumed for themselves absolute powers of control. How they will be exercised remains to be seen.

The measures of control already specified in the Order are designed to release for sale the stocks held by the manufacturers and the dealers and thereby reduce prices. Thus the manufacturers and dealers are required to declare by August 15 their stocks of cloth and yarn held by them on July 31 and to dispose of such stocks before October 31. As regards cloth manufactured after July 31 and bearing marks prescribed by the Board of Control, it is to be disposed of by retail sale within six months of the date of packing by the mills, no manufacturer being allowed to hold stocks equivalent to more than three months production of cloth. Persons other than dealers or manufacturers are prohibited from possessing cloth or yarn in excess of their normal requirements, but "no prosecution for contravention of this provision can be made without the Provincial Government's previous sanction." One can only hope that private individuals who may hold cloth in reserve as a safeguard against greater scarcity in the future or for the benefit of relatives in need will not be subjected to vexatious searches and prosecutions by officers purporting to act on behalf of the Provincial Government.

If production is adequate and exports are stopped, the measures mentioned above will doubtless release hoarded stocks and bring down prices even before maximum prices are fixed. The present production leaves a small margin for the civil population after satisfying the demands of the Army. Even this small margin is further reduced by Government's persistent exports to neighbouring countries. If in these circumstances Government think that mere control measures will do the trick and make cheap cloth available they are only inviting a failure, for which the people will suffer most. There are sharp limits to increased mill production in the absence of machinery and spare parts. That being the case, the only way to ensure adequate internal supply is to stop exports and organise hand-spinning and hand-weaving on a large scale. But Government refuse to stop exports or even to confine them to military purposes. Mr. Hydari, Secretary, Department of Industry, stated the other day that Government wanted that India should be able "to export appreciable quantities at guaranteed qualities and at reasonable prices to her neighbours", as "there is at the present moment great shortage in cotton piecegoods east and south of Suez." And as regards handspinning, instead of encouraging it Government are heaping all sorts of penalties on Khadi organisations. In the control of cloth as of food, the secret of success is adequate supply through more production and stopping of exports. If Government fail to act on this principle their system of control will not serve its purpose, assuming that the purpose is not merely to get cheap cloth for export.

Drive Through Turkey ?

If the present is the phase of "nerve war," the Allies are conducting it very well. Preparations are being made in an atmosphere of semi-secrecy in Britain and along the whole of North Africa. Commentators have been allowed to discuss freely and in a manner suggestive of inside knowledge the plans of attacks and even some details of the methods and material that are to be used. And now another step forward has been taken in closing of the Syrian frontier with Turkey. The Axis, looking at the comparative proximity of Syria to the Aegean Islands and to Eastern Greece, must be seriously perturbed over this development coming on top of the menace to Western Europe and Italy. So far so good. The nerve war is succeeding splendidly.

But it is causing some confusion and a great deal of curiosity elsewhere, too. If the closing of the Syrian frontier implies Allied military concentrations, how are they planned to be used? The launching of an attack on Axis held possessions in Eastern Mediterranean direct from Syria is an obvious possibility. But the British paper, the "Daily Telegraph and Morning Post" of London, suggests the possibility also of a drive through Turkey against Greece and Macedonia. But what about Turkey in connection with this delightfully attractive plan? We believe the Allies are not so mad as to launch an aggression against Turkey and invite grave trouble for themselves in a vital theatre of the war. Nor do we believe, if there is any meaning in M. Sarajoglu's statement, that the Turks are going voluntarily to give up their neutrality. In the circumstances statements like that of the "Daily Telegraph" must be deplored as injuriously irresponsible.

FRANKLY SPEAKING

Forde Supports Curtin

Following on the recent statement by what the London "Times" would call the habitually "cautious" Mr. Curtin, his colleague, Mr. Forde, the War Minister, has also expressed his agreement with the view that the invasion risks to Australia were less than ever before. Mr. Forde bases his opinion "on the great improvement in the defences along the north-eastern sea-board in the last twelve months, plus the latest reports I have received from military advisers." People outside Australia have long known that Australia was not in danger but that it was China which was menaced by Japan. Anyhow, now that Australia is safe, is it not time for America and Britain to concentrate on helping China?

Labour Party Conference

The main interest in the Labour Party Conference which is now meeting in London centres round three issues: the electoral truce, the affiliation of the Communist Party and Labour's post-war policy. The first issue has already been decided by an overwhelming majority. The Labour-Tory truce in the constituencies is to continue. In view of the fact that the rank and file of the Labour Party has been restively demand an end to the truce the decision is a significant commentary on the autocratic hold on the Party of the Executive and of the latter's reactionary character. Indeed, this autocracy is reported —not, of course, by Reuters—to have been the subject of a strikingly critical pamphlet by Professor Harold Laski, himself a member of that Executive. In view of the character of the Executive a satisfactory decision on the two pending issues can hardly be looked forward to with any great certainty. So far as India is concerned, very little can be expected of the Conference in vindication of its own fundamental principles. It is interesting to note in this connection that in the Chairman's address the reference to India is remarkable only for its conspicuous unimportance.

Bare Justice

The Bombay Municipal Corporation has done but elementary justice in adopting a resolution requesting the Commissioner to consider and report on the advisability of granting immediately Rs. 25 as dearness allowance to every Municipal employee earning below Rs. 201 per month. Considering that the cost of living has nearly doubled since 1938 the allowance proposed can hardly be said to be excessive. And if the allowance is necessary the cost must be borne by the Corporation whether it is Rs. 28 lakhs or twice as much. Once the principle of giving dearness allowance is accepted, as, indeed, it is universally, the relief must not be merely make-believe, it must have a fair proportion to the need for it, at any rate in the case of the lowest paid staff. Though the resolution only asks the Commissioner to consider its feasibility, it is in spirit a recommendation that the proposed allowance should be paid and we trust the Commissioner will not whittle down the proposition.

CAPITOL BOMB CASE

(From Our Correspondent)

POONA. (By Mail)

The Capitol Bomb Case, in which Mr. S. P. Limaye, a local Congress Socialist worker, and four other youths are charged with murder and conspiracy to commit murder, will open before the additional City Magistrate, on Saturday (June 26).

Mr. M. S. Patil, Special Judge, has sent the case, in which Mr. N. V. Athavale and four others are being prosecuted on the charge of smuggling hand-grenades from a Government store, for a 'de novo' trial, to the First Class Magistrate, West Division, in view of the latest ordinance abolishing special courts.

The case had already reached its concluding stages in the special court.

Ceiling To Income-Tax

The desirability of fixing a ceiling to the rate of income-tax and super-tax to which Life Assurance companies should be subject, was stressed by Sir Purshottamdas Thakurdas, presiding over the Sixty-Eighth Ordinary General Meeting of the shareholders and policy-holders of the Oriental Government Security Life Assurance Company, at the registered offices of the company on Wednesday.

Sir Purshottamdas stated that the principle of pegging the income-tax of Life Assurance Companies had already been accepted in Great Britain on the realisation that a Life Assurance policy is by its nature a long-term contract under which the company must earn a previously estimated minimum net rate of interest to be in a position to meet its obligations.

The meeting adopted the annual report for the year 1942. Sir Joseph Kay, Sir Purshottamdas Thakurdas and Sir Kikabhai Premchand were re-elected directors. A dividend of Rs. 125 per share was declared. The payment of a bonus equivalent to one month's salary to the staff was agreed to. Messrs. S. B. Billimoria & Co and Chandabhoy and Jassoobhoy were appointed auditors.

Transfer Application Rejected

(Before the Hon'ble, Chief Justice and Mr. Justice Sen.)

Dhunbai Sorabji Pawri ..... Petitioner.

Vs.

1. Rustomji Ardeshir Ashburner (Original Accused)
2. The Crown ..... Opponents.

The first opponent was a sub-broker to whom the petitioner alleged that she gave Rs. 3000/- for two Tata Deferred Shares which he failed to give her. The Petitioner thereupon filed on 2nd April 1940 a criminal case of cheating against him. The Magistrate acquitted the first Opponent, accepting his defence that it was a civil transaction of loan. On appeal, this acquittal was set aside, and the case remanded and is being heard before Mr. Vyas, Presidency Magistrate Girgaum, before whom only two witnesses have yet been examined, and no charge has been framed.

Their Lordships refused this application to transfer the case to another Magistrate on the ground of unconscious bias. His Lordship the Chief Justice observed that this was a case which could be disposed of in two hours. Their Lordships ordered that the case should proceed before Mr. Vyas with a direction to the Magistrate to dispoe it of with dispatch.

Mr. J. D Davar with Mr. Masani appeared for the petitioner.

Mr. S. D. Vimadalal with Mr. B. G. Modak and Mr. B. G. Pradhan appeared for the first opponent. The Government pleader appeared for the Crown.

GOVT. TO CONTROL ISSUE OF CAPITAL AND SHARE

NEW DELHI, June 16.

Enquiries made by the 'United Press' in authoritative circles show that permission of the Government of India will be necessary for not only the issue of new capital but also the issue of shares of limited companies offered for subscription before the date of the Rule but not yet taken up. There is some confusion in the public mind arising from the common use of the expression "issued capital" for capital offered for subscription. The capital could not correctly be regarded as issued unless it is allotted. Permission is therefore necessary for sale of shares of existing companies which have not been allotted.

The 'United Press' understands that the Government of India will be shortly issuing a Press Note removing this confusion and giving details in clear terms as to the provisions of the Companies Ordinance.—U. P.

Ministry Making In U. P.

Vijayalaxmi Says It Would Be A Negation Of Democracy

ALLAHABAD, June 16.

It is understood that Mrs. Vijayalakshmi Pandit's opinion has been sought regarding the formation of a coalition ministry in the United Provinces by certain members.

Mrs. Pandit, it is learnt, expressed surprise that when the Premier of the Province and the Speaker of the Legislature and most of the Ministers were in jail such a proposal could be mooted. Such a move would be a negation of democracy and the trust the electorate had placed in their representatives.—United Press.

Ministry Of Faqirs Will Do Its Best

PESHAWAR, June 15.

Replying to a welcome address presented to the Ministers of the Frontier Province by the citizens of Peshawar Cantonment this evening Sardar Aurangzeb Khan, Premier, said: "I am a 'Faqir' and it is a Ministry of 'Faqirs' as is obvious from the fact that we are getting only Rs. 500 per month which in these days is equal to Rs. 100."

"My coming to power", Sardar Aurangzeb Khan said, "was a divine plan. It was God who wanted this Ministry. The moment we became unfair to the minorities, He would punish us and we shall not remain in office a second more.

"If my Government comes in conflict with the Government of India regarding food policy, we would fight with them and prefer to be styled as constitutional rebels rather than betray the people whom we represent."

Concluding Sardar Aurangzeb Khan appealed to the people to co-operate with him and he would prove a true servant.—United Press.

Dr. Erulker On Evolution Of Medicine

BOMBAY, Wednesday.

Dr. A. S. Erulker in the course of his lecture on evolution of medicine at Blavatsky Lodge this evening observed that Doctors should commit suicide, if the diseases are to be stopped by preventive methods alone. One can place reliance, he observed on the examination of the pulse in diagnosis and in treatment he elaborated a system of indications the chief of these being to remove the cause of the disease or prevent its action. Mr. J. B. H. Wadia presided.

Continuing Dr. Erulker explained how in certain countries medicalmen rejected not only reasoning and every form of theory as to the nature of disease, but denied that medicine could be founded upon the science of anatomy and physiology trusting only to clinical observations and their own experiences in treatment. Surgery developed only recently and the cause of its development and progress was mainly due to quacks. He cited the instance of Catharine of Braganza who had no issue absolutely and after undergoing certain surgical operations gave birth to 18 children.

Denouncing the Delhi Government's ban on Louis Fischer's articles, the Servants of India Society asserts that there was nothing in them to suggest that "he was disseminating information useful to the enemy or expressing views which could undermine public order."

The Society is quite wrong. Louis Fischer underminded the prestige of the very source of Public Order, and he very definitely disseminated information useful to the people of India. What could be worse than these?

The Half-Column By "Dim"

Found walking on Marine Drive in the rain yesterday was "Times of India's" War Correspondent Frank Moraes. Interviewed by our special base correspondent Moraes said (Passed by Censor, we hope) that he was having his constitutional. Our base correspondent, however, suggested that Moraes was trying to revive the soggy atmosphere of Arakan, finding the "Times of India" too dry after his recent visit to the FRONT—not to be confused with a more recent appearance on the platform of the National War FRONT. All very confused. We presume our base correspondent's message was probably incomplete.

It's about time Dr. Khare brought this item up for prohibitive taxation—that is if Dr. Khare does mean to do anything effective by way of retaliation.

HOW TO REGAIN YOUTH?

The wonder is that youth is restored in 7 days, but strict self-control is to be exercised during this period, otherwise the secret of cure is rendered ineffective. So only those should use the medicine who can promise this self-control. A great miracle makes its appearance on the very first day. All that is required is to store it and then for years you will not experience any loss of vigour again. There are two medicines, one for internal consumption and the other for external application. The complete course is known as REJUVINE. The very first dose of internal medicine begins to work wonders as if complete transformation has begun. The medicine for application also shows its miraculous effects from the very first day.

Price complete course Rs. 5/-. Postage -/11/- extra.

This course will be sent to those who promise to exercise complete self-control.
